<p>Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).</p>			
<p>NOTICE OF APPEAL</p> <p>2. <input type="checkbox"/> The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).</p>			
<p>AMENDMENTS</p> <p>3. <input checked="" type="checkbox"/> The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because</p> <p>(a) <input checked="" type="checkbox"/> They raise new issues that would require further consideration and/or search (see NOTE below);</p> <p>(b) <input type="checkbox"/> They raise the issue of new matter (see NOTE below);</p> <p>(c) <input checked="" type="checkbox"/> They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or</p> <p>(d) <input type="checkbox"/> They present additional claims without canceling a corresponding number of finally rejected claims.</p> <p>NOTE: <u>See Continuation Sheet</u>. (See 37 CFR 1.116 and 41.33(a)).</p>			
<p>4. <input type="checkbox"/> The amendments are not in compliance with 37 CFR 1.121.  RENEE LUEBKE PRIMARY EXAMINER			

Continuation of 3. NOTE: Applicant's argument that the newly added amendment to claim 2 does not necessitate a new search (Remarks, page 1) is not persuasive, because the newly amended claim 1 presents a different lamp system having a NEW combination of a base including (specifically) a neck, a shade including (specifically) a lip sitting in the neck, a coupler (specifically) including a head portion for seating within the shade, and a cup unitary with the heat portion. The embodiment disclosed in claim 6 is different from the lamp system of claim 1 and comprises a base and a shade which do not require particular structures (e.g. a neck on the base and a lip on the shade).

Continuation of 11. does NOT place the application in condition for allowance because: Applicant's argument that one of ordinary skill would not have derived any motivation whatsoever from the teaching of Lin to make a coupler (6) of Lin unitary with a cup (5) (Remarks, page 2) is not persuasive, because unification of the coupler and the cup will result in a unit module that includes a shade placed permanently between the coupler and the cup. The shade of the unit module is still removably connected to a base by using a securing means (8). Forming/unifying plural components into a single module reduces the total number of parts of the device for handling and assembling. Therefore, It would have been obvious to one of ordinary skill in the art at the time the invention was made to form the coupler and the cup of Lin into a single module, for the purpose of reducing the time and money for the handling and assembling processes.
